

### Meeting Dates

- \*TAC#1 - 14Nov2023
- \*TAC#2 - 13Feb2024
- \*TAC#3 - 14May2024
- \*TAC#4 - 9Jul2024
- \*TAC#5 - 10Sept2024
- \*TAC#6 - 12Nov2024

# Agenda

Knoxville Regional TPO  
2050 MTP Update

Technical Advisory Committee (TAC)  
TAC#1 Meeting

November 14, 2023 @ 9 AM to 10:30 AM (City County Building, 400 Main Street, Knoxville, TN)

## Meeting Agenda

1. **Welcome / Introductions – Why are we here?** (TPO) – 5 min
2. **Advisory Committee – Roles & Responsibility** (Stantec) – 10 min
3. **Schedule, Data Needs** (Stantec) – 5 min
4. **Outreach Strategy** (Stantec + TPO) – 10 min
5. **Interactive Mapping Exercise** (All) – 30+ min
6. **Action Items / Next Steps** (Stantec) – 10 min

## Meeting Notes:

Attendees: (24+) see sign in sheet scan.

### This plan will be successful because...

- Talent and experts on this TAC; team cohesion; prior MTP update success
  - Quality public outreach and participation
  - Preparing us for the next TIP cycle
  - Retaining our unique identities
- Traffic focus, and “planning ahead” for the region
- Success of Vision Zero Action Plan process, which set priorities for High Injury Network [<link>](#)
- Knox County Growth Plan, with regional perspective for healthy growth
- TDOT leadership + FHWA 3C process: Continuing, Comprehensive, and Cooperative

### Discussion through presentation slides included the following:

- **Priority Population** / Vulnerable community – 27 indicators; 4 updates to date, 2023 is most recent
  - Themes: Livability + Mobility + Opportunity + Vulnerability = Composite score
  - Report: [<link>](#)
  - Dashboard: [<link>](#) (Aubrey Weiland)
- TPO Regional Roadway Safety Action Plan (2023): [<link>](#)
  - High Injury Network (HIN) established for the region – *use these data for prioritization*
  - Predictive Analysis viewer: [<link>](#)
- Knox County Comprehensive Land Use & Transportation Plan (ongoing): <https://advanceknox.org/>
  - Draft plan: [<link>](#)
- **Oak Ridge National Labs:** 12K+ employees, across several sites: ORNL site / Y-12 site / K-25 site
  - K-25 site: Proposed new airport (transport radioactive isotopes)
- Rural Economic Development topics:
  - Eco-tourism / Mountain Biking / Whitewater Rafting
    - Big South Fork <https://www.nps.gov/biso/index.htm>
    - Great Smoky Mountains!!!
  - Local Art Community / Public Art Murals
  - Breweries
  - Innovation / Oak Ridge National Labs

- I-40/75 congestion issues – exploration of bypass options / alternatives
- Access Management and Developer Requirements
- Consideration of sidewalk requirements for developments - discussion about possible TN state laws that limit authority of counties to require. Some / few counties include sidewalk requirements: Knox [<link>](#)
  - Planning regulations / review & change
    - Time & effort to review UDO codes / proactive changes
    - Form-based code trends
    - TDOT + Univ of Memphis :Statewide land use model standards – [<link>](#)
- Affordable Housing challenge in Knox County
- eCommerce delivery patterns, and its impact on travel / congestion patterns

#### Chat Box items:

- TDOT Vulnerable Road Users Safety Assessment [<link>](#)
- 2021 Statewide Active Transportation Plan [<link>](#)
  - Multimodal Priority Tool 2.0
- TDOT State Bike Route Network [<link>](#)
- TDOT Choice Lanes (“tolling”) – **Transportation Modernization Act 2023** [<link>](#)
- TDOT Congestion Studies – Knoxville Region: [<link>](#)
- TDOT Interstate Freight Bottleneck Analysis (2019) [<link>](#)
- TDOT Induced Demand Study (underway; 2025) [<link>](#)
- TDOT Quick Build projects for bike/ped – in process – **need link**
- USDOT Equitable Transportation Community (ETC) Explorer [<link>](#)
- UT Study of urban pedestrian crashes (2009-19) – roadway characteristics – **share PDF**

#### “PARKING LOT” of good ideas for **future** discussion(s) – send us **more links** regarding...

- “**Plan East Tennessee**” (Plan ET) report / process; no mechanism to push forward
- Induced Demand study – Memphis, TN
  - Recently initiated; anticipated by 2025 [<link>](#)
- “Traffic Signals are not the only solution” – need more alternative intersection concepts
- TDOT Quick Build projects for bike/ped – **expedited, or demonstration projects?**
- TPO: new boundary expected to be approved in Dec 2023
- Caliper – Travel Demand Model update - concurrent
  - Review of regional population forecasts including Woods & Poole and UT CBER data sources
  - Base yr 2022. Horizon years: 2030, 2040, 2050.
  - Minor update: Deadline Feb/Mar 2024

#### Action items:

##### TAC members

- Correct anything that we may have mislabeled, or described above
- Promote the Survey + Interactive map: <http://knoxmobility.org/feedback>
- Generate a list of ‘who’ else needs to be made aware of this MTP process – need your help!
- Compile & share regional photos showing all modes of travel

##### Stantec team

- Generate half-page flyer & sample email text to help promote website/survey
- Identify data/resource gaps, and request info
- Coordinate Community Engagement Round #1 logistics (Dec / Jan)
- Review financial trend spreadsheet
- Consider online survey for TAC members relating to project Goals and changes
- Review StreetLight data access for addressing specific questions (e.g., I-75/40 new connection)

**Attachments:** Attendees sign-in sheet, Presentation slides

# Knoxville 2050 MTP Update

TAC #1 Meeting

November 2023

#	Name / Department	Email
1	Dallas DeArmond TPO	dallas.dearmond@knoxplanning.org
2	Michael Hogan / City of Loudon	MICHAEL.HOGAN@CITYOFLOUDON.TN.GOV

# Metropolitan Transportation Plan is...

- Federal requirement – FHWA
- Long-range 20+ years
- Multimodal
- Fiscally-constrained
- Representation of **YOUR** local goals / needs

4

*This **plan** will be successful because...*

MOBILITYPLAN 2050

5

## Agenda

1. Welcome / Introductions
2. Advisory Committee – Roles
3. Schedule
4. Outreach Strategy
5. Interactive Mapping Exercise
6. Action Items

MOBILITYPLAN 2050

6

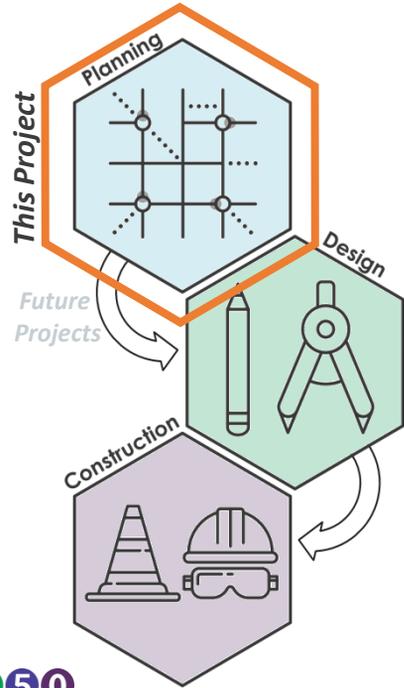

# Roles

## Stantec—the ‘process’

- Synthesizing information
- Facilitation
- Technical assistance and best practices

## Advisory Committee—the local experts

- Meeting logistics, scheduling
- Local area knowledge & community vision
- Identifying the “**who**” needs to be involved?
  - *YOU know YOU better than us!*

**MOBILITYPLAN 2050**

7

# General Timeline

**21-month time frame**  
 Sept 2023 – May 2025

**MOBILITYPLAN 2050**

8

# Agenda

1. Welcome / Introductions
2. Advisory Committee – Roles
3. Schedule
4. Outreach Strategy
5. Interactive Mapping Exercise
6. Action Items

10

# Outreach Strategy

## What to expect...

### Website + Online Survey + Interactive Map

- Digital outreach 24-hours / 7-days

### Technical Advisory Committee (TAC)

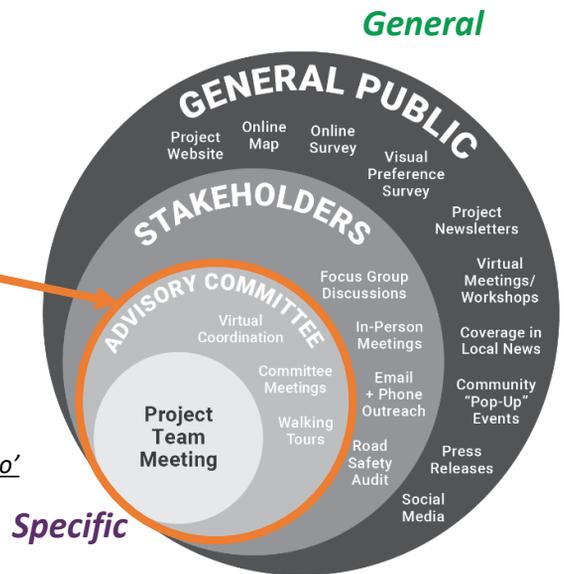

- Total of eight (8) – half virtual

### Community Events: two (2) rounds

- *Issues & Vision*: citizens provide direction
- *Priorities*: citizens provide feedback

### Focus Groups: up to six (6), virtual “listening”

- Topics identified – need help identifying the ‘who’

11

# Project Website

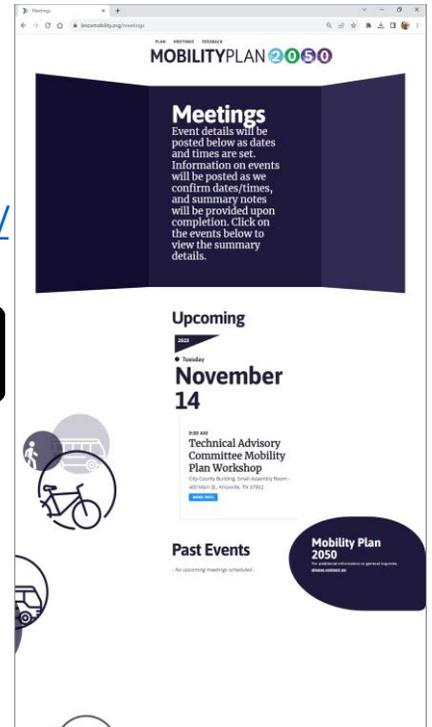

What we need from you: <https://knoxmobility.org/>

- Bookmark it!
- Share it!

Our launching point for Public Outreach

MOBILITYPLAN 2050

12

## Agenda

1. Welcome / Introductions
2. Advisory Committee – Roles
3. Schedule
4. Outreach Strategy
5. Interactive Mapping Exercise – *What we (think we) know...*
6. Action Items

MOBILITYPLAN 2050

13

# Before we start Polling....

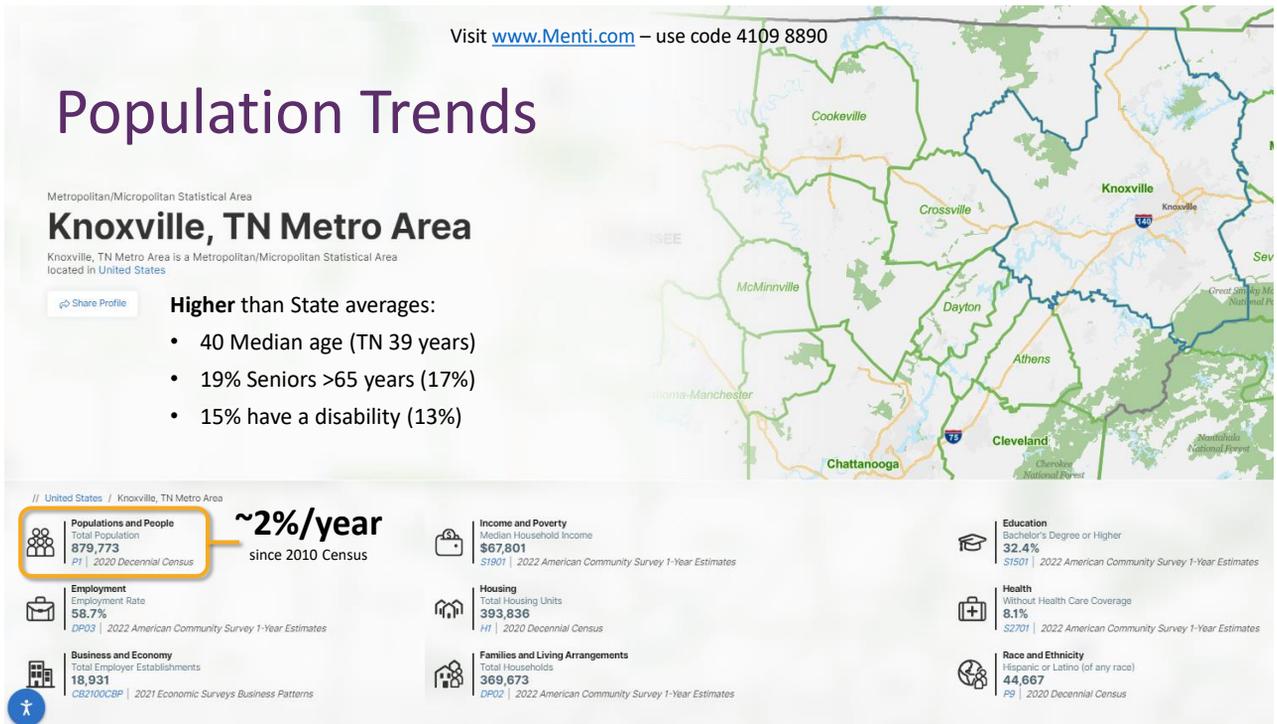

- Visit [www.Menti.com](http://www.Menti.com)

or take a photo of this QR code

## MOBILITYPLAN 2050

14

15

Music Scene (Bluegrass, Country)

University of Tennessee, Knoxville

Smoky Mountains / Recreation

Others?

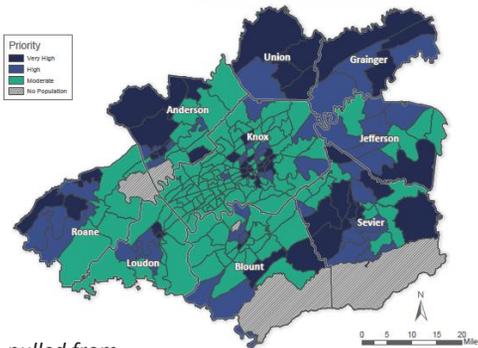

MOBILITYPLAN 2050

17

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

# Population Trends Continued

Priority Populations: Composite Score, 2022

## Demographics – Priority Population

All Census Tracts are at least moderate priority

Data Considerations:

- Map does not include **total population** information (downtown: small in size, higher in population)
- Not a substitute for community knowledge **Where are the areas in need?**

Where can we download these data?

Info pulled from

MOBILITYPLAN 2050

18

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

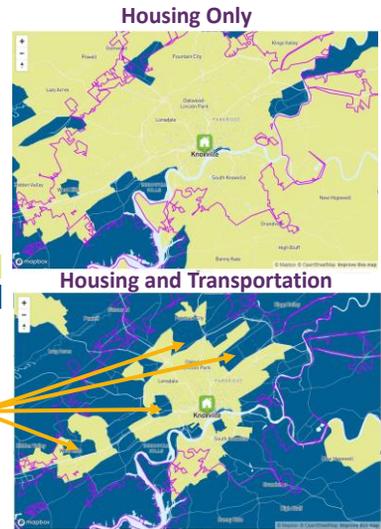

# Demographics –Affordability and Housing

Housing + Transportation gives a more complete picture of “affordability”

- More affordable within the city, less affordable in the suburbs...sort of
- Typical Knoxville resident spend **nearly half** of their income on housing + transportation

Cost of living:  
 <30% of regional income  
 >30% of regional income

What factors influence these areas?

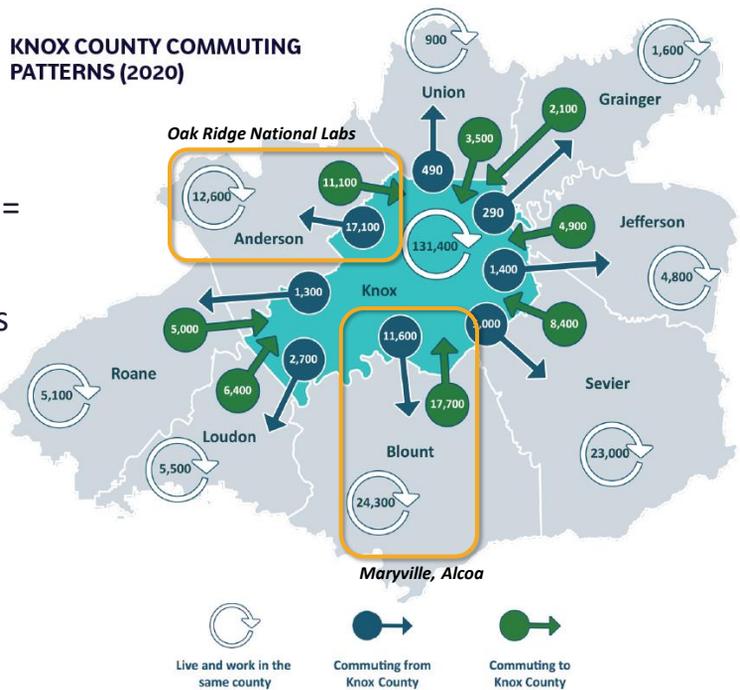

Data Source:  
<https://htaindex.cnt.org/>

<https://htaindex.cnt.org/map/>

20

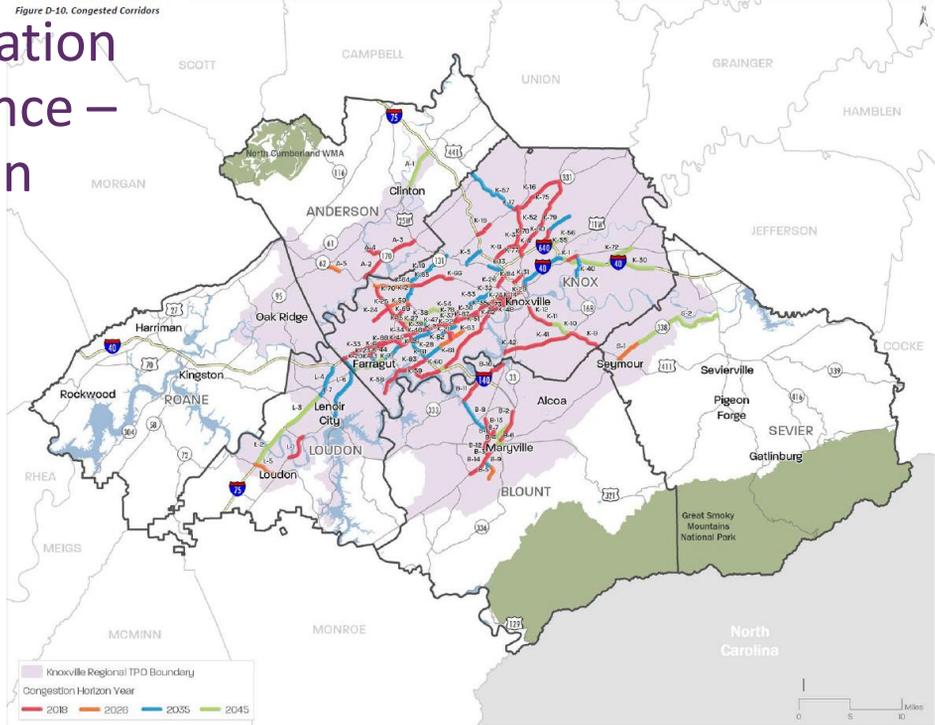

- Daytime population swell = **workday pressures**
- Anderson, Blount counties = employment hubs

21

# Transportation Performance – Congestion

Figure D-10. Congested Corridors

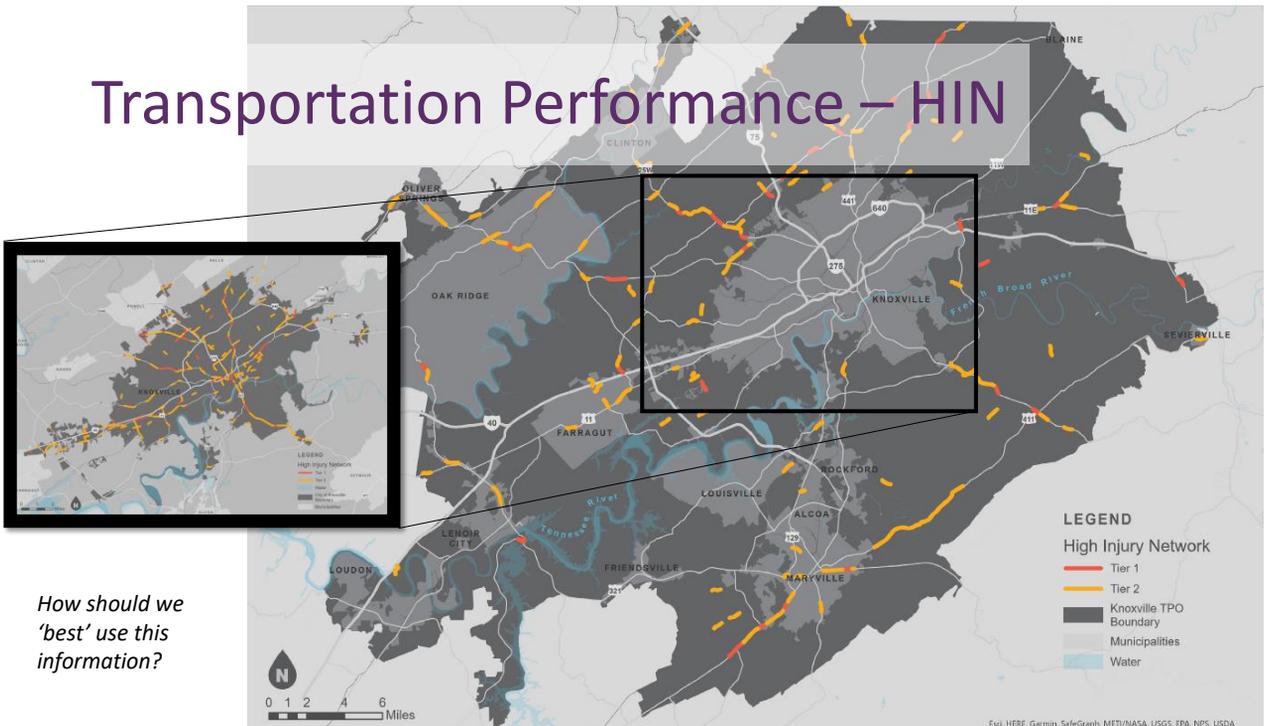

- How “bad” is bad?!
- Many segments prioritized
  - Knox County → outward

CMP – Appendix D of 2045 Mobility Plan

# Transportation Performance – HIN

How should we ‘best’ use this information?

# Transportation Performance – Biking, Walking & Transit

## What has changed since?

### 'Barometer' of 2021 conditions

**City of Knoxville:**  
71% of total bike lanes

**Farragut** (51% of roads)  
**Oak Ridge** (49% of roads)  
**Knoxville** (36% of roads)

**City of Knoxville:**  
57% of total greenways

**KAT Reimagined (ongoing):**

- New planned routes?
- Other service improvements?

*How are we serving our rural areas?!*

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

## Polling Time!

- Visit [www.menti.com](http://www.menti.com)
- Use code 4109 8890

or take a photo of this QR code

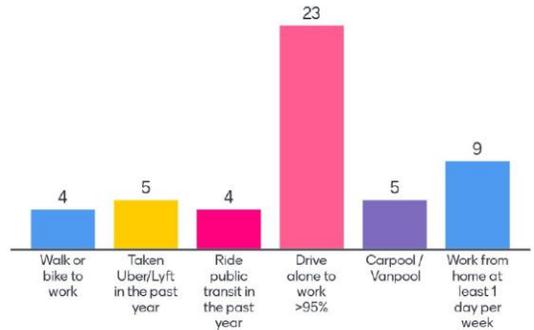

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

**QUESTION 1: How do YOU move around this region?**  
(check **all** that apply)

- A. Walk or bike to work
- B. Taken Uber/Lyft in the past year
- C. Ridden public transit in the past year
- D. Drive alone to work at least 95% of the time
- E. Carpool or Vanpool
- F. Work from home at least one day a week

**Q1: How do YOU move around this region?**

**MOBILITYPLAN 2050**

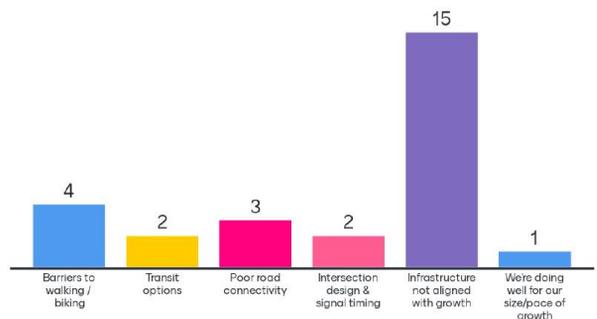

27

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

**Question 2: What's your biggest transportation ISSUE?**  
(choose one)

- A. Barriers to walking / biking
- B. Transit options
- C. Poor road connectivity
- D. Intersection design & signal timing
- E. Infrastructure not aligned with growth
- F. We're doing well for our size/pace of growth

**Q2: What's your biggest transportation ISSUE?**

**MOBILITYPLAN 2050**

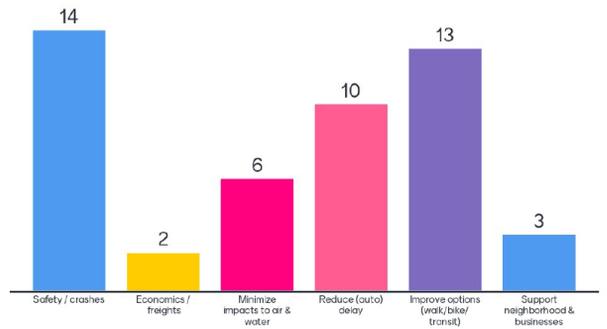

28

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

Question 3: What projects are MOST important to focus on? (choose two)

- A. Safety/Crashes
- B. Economics/ Freight
- C. Minimize impacts to air & water
- D. Reducing auto delay
- E. Improving options (walking, biking, transit)
- F. Supporting neighborhoods and business interests

Q3: What projects are MOST important to focus on?

MOBILITYPLAN 2050

29

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

Trends we see

- Technology emerging
- Cultural / Lifestyle shifts
- Aging populations
- Changing economy
- Hybrid/ WFH Work Choices
- Shrinking revenues

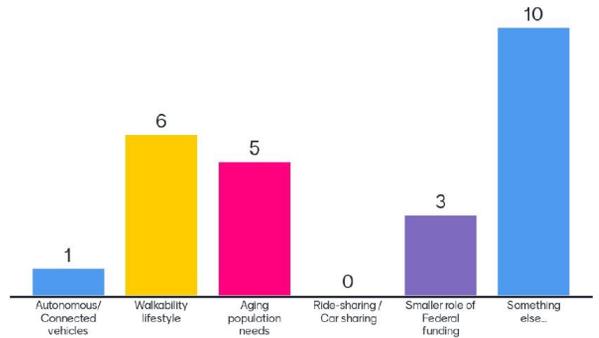

MOBILITYPLAN 2050

30

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

## QUESTION 4: Which trend has the most **IMPACT** on this region’s transportation future? (choose one)

- Q4: Which trend has the most **IMPACT** on this region's transportation future?
- A. Autonomous/Connected vehicles
  - B. Walkability lifestyle
  - C. Aging population needs
  - D. Ride-sharing / Car sharing
  - E. Smaller role of federal funding
  - F. Something else...

**MOBILITYPLAN 2050**

32

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

## Rethinking the Role of Streets

**MOBILITYPLAN 2050**

Photo credit:  
<http://coastalconservationleague.org/news/blog/errors-omission/>

33

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

## Streets are Inadequate

- No sidewalks
- Too dangerous to cross on foot
- Uninviting for bus riders
- Not safe for bicyclists
- No room for people!
- Inaccessible for wheelchairs

**MOBILITYPLAN 2050**

34

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

## Every mode needs...

- Convenience
- Safety
- Comfort
- Access
- Predictability
- Affordability
- Reasonable travel time

MOBILITYPLAN 2050

35

## Safety benefits

- U.S. Pedestrian deaths are at the highest level in 41 years –
  - 7,500 struck and killed while walking on US streets
- Complete Streets reduce crashes through comprehensive safety improvements

MOBILITYPLAN 2

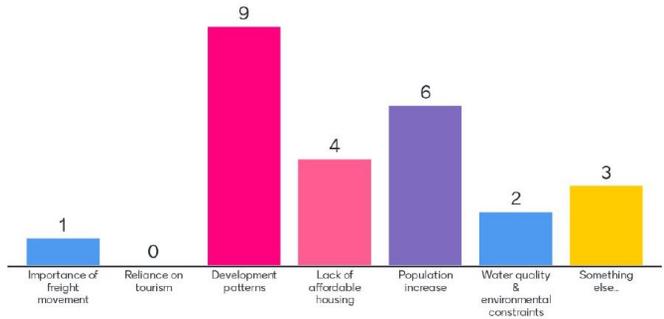

36

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

### Question 5: Which local feature makes transportation more challenging? (choose one)

- A. Importance of freight movement
- B. Reliance on tourism
- C. Development patterns
- D. Lack of affordable housing (people making longer trips)
- E. Population increase
- F. Water & environmental constraints
- G. Something else...

#### Q5: Which local feature makes transportation more challenging?

MOBILITYPLAN 2050

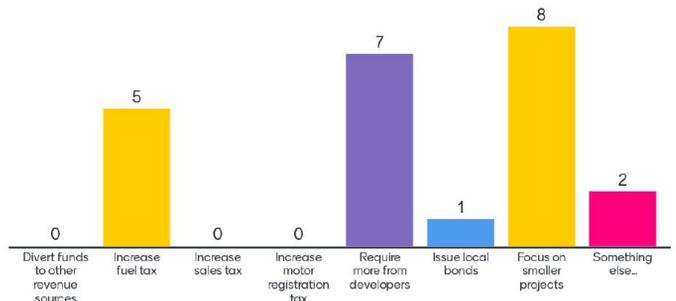

37

Visit [www.Menti.com](http://www.Menti.com) – use code 4109 8890

### Question 6: How can we build transportation projects FASTER? (choose one)

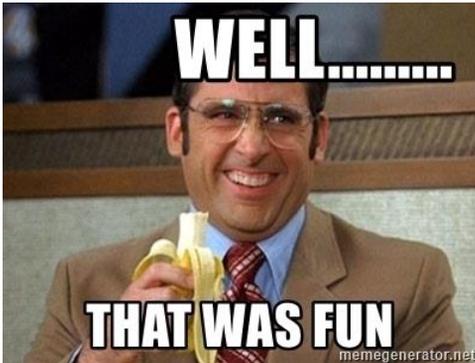

- A. Divert funds from other revenue sources
- B. Increase fuel tax
- C. Increase sales tax
- D. Increase motor registration tax
- E. Require more from developers (Impact Fees, etc.)
- F. Issue local bonds
- G. Focus on smaller, “bang-for-the-buck” projects
- H. Something else...

#### Q6: How can we build transportation projects FASTER?

MOBILITYPLAN 2050

38

- Let's talk Goals & Performance Measures!!!

## MOBILITYPLAN 2050

39

## Discussion

Goals from 2045 Plan

## MOBILITYPLAN 2050

40

# Performance Measures

Table 1. Knoxville Regional TPO Goals and Performance Measures

FAST ACT PLANNING FACTORS	REGIONAL GOALS	PERFORMANCE MEASURES
<b>PM2</b>	<b>SYSTEM PRESERVATION</b> Maintenance and Efficiency	<ul style="list-style-type: none"> <li>Preserve and maintain our existing infrastructure through repairing projects, bridge replacements, access management, sidewalk repairs, and intersection improvements</li> </ul>
	<b>ACCESSIBILITY AND MOBILITY</b> More Options	<ul style="list-style-type: none"> <li>Improve access to services and employment with bicycle and pedestrian facilities, and transit services</li> </ul>
<b>PM1</b>	<b>SAFETY</b> Safety and Security	<ul style="list-style-type: none"> <li>Reduce rates of crashes with serious injuries and fatalities. Reduce the region's vulnerability to incidents and threats</li> </ul>
	<b>SECURITY</b> Health and Environment	<ul style="list-style-type: none"> <li>Minimize negative impacts on the environment and people's health, and increase access to active transportation/physical activity for all ages</li> </ul>
	<b>ENVIRONMENT, CONSERVATION, AND LAND USE</b> Health and Environment	<ul style="list-style-type: none"> <li>Minimize negative impacts on the environment and people's health, and increase access to active transportation/physical activity for all ages</li> </ul>
<b>PM3</b>	<b>CONNECTIVITY</b> Equitable Access	<ul style="list-style-type: none"> <li>Connect communities to opportunities and services throughout the region, particularly areas with high proportions of low income, senior, and minority populations</li> </ul>
	<b>SYSTEM EFFICIENCY</b> Congestion Reduction	<ul style="list-style-type: none"> <li>Use our system more efficiently through technology like traffic signal coordination, real time traffic info, and emergency response vehicles</li> </ul>
	<b>RESILIENCY AND RELIABILITY</b> Preservation of Places	<ul style="list-style-type: none"> <li>Preserve natural and cultural areas and places that make our region unique (e.g. mountains, open space, farmland, viewsheds, small communities)</li> </ul>
	<b>ECONOMIC VITALITY</b> Economy and Freight	<ul style="list-style-type: none"> <li>Improve intermodal connections to help move freight to and through the region. Reduce delay on major freight corridors</li> </ul>

42

## Agenda

1. Welcome / Introductions
2. Advisory Committee – Roles
3. Schedule
4. Outreach Strategy
5. Interactive Mapping Exercise
6. Action Items

43

## Coordination Items

### Background Resources

- Previous studies / plans / reports?
- Additional data sources?
- What don't we know?

MOBILITYPLAN 2050

## Action Items

### We need from YOU...

- Send us more data / resources! – Fill the knowledge gap
- **PROMOTE** Project Website – survey – Interactive Map

### STANTEC is working towards...

- Existing conditions / synthesis
- TAC #2 – tbd
- Community Event – Round #1 – Dec-Jan 2025
  - Multiple events / dates

# Agenda

## Knoxville Regional TPO 2050 MTP Update

## Technical Advisory Committee (TAC) TAC#2 Meeting

February 13, 2024 @ 9 AM (City County Building, 400 Main Street, Knoxville, TN)

### Meeting Agenda

1. **Welcome / Introductions** – *Today's objectives* (TPO) – 5 min
2. **Review of Schedule, Outreach, Data Needs** (Stantec) – 5 min
3. **FHWA Requirements for MTP Update** (Stantec) – 10 min
4. **Growth Trends Discussion** (TPO) – 15+ min
5. **Goal Prioritization** (Stantec + TPO) – 20 min
6. **Funding Trends** (TPO) – 15 min
7. **Action Items / Next Steps** (Stantec) – 10 min

### Meeting Notes:

Attendees: 22+ see attachment.

#### Review of Schedule

- Timeline: approaching the transition from phase 1 (Outreach & Data) to phase 2 (Needs Assessment).
  - Phase 1 will cover a majority of the analysis, draft recommendations, and long range planning.
- Reminder of the varying outreach strategies for different stakeholders (from general/broad, to specific)
- Outreach to date has included:
  - 3,280 recipients of our emails lists / newsletters
  - 690 survey participants: would benefit from more participants who ride transit
  - 330 points of interest added to our ArcGIS Online interactive map
  - 84 focus group participants in 5 sessions (Jan 30<sup>th</sup> – Feb 1<sup>st</sup>)
  - Three (3) Community Events for Round #1
    - Monday 2/12 @ KAT: **20+** sign in participants
    - Tuesday 2/13 virtual (lunch): **16+** attendees
    - Tuesday 2/13 @ Blount County Library: **17+** sign in participants
- Reminder of FHWA requirements for an MTP update, citing local vision & goals, and future needs
- Reminder of Stantec's role: Validate – Synthesize – Integrate, with direction from regional staff

#### Growth Trends – Discussion

- KRTPO staff presented population & employment projections to 2050, including a comparison of data sources (US Census, CBER, and Woods & Poole), and their data variation by county
- Population growth is a function of:
  - Natural change: births – deaths
  - Net migration: people moving into the region – people moving out of the region

#### Observations & Discussion included the following:

- Woods & Poole projections were higher than CBER, with the exception of Knox County (<1% difference)
- Roane County projections show a decline in population for CBER data (-2k) by 2050
- Projections for Sevier County are both lower than the 2045 estimates due, and likely influenced by current housing market constraints (scarcity of homes; majority are rental units/tourism based)
- Tennessee is experiencing a slower birth rate (since 2007), as with many States

- Tennessee is experiencing a *high* in-migration rate, as with many southeastern States
  - Over the past 5-years, in-migration to Tennessee has been coming from:
    - Florida, Georgia, California, North Carolina, Virginia, Texas, Illinois, New York, & Alabama
- Charts of natural change and net migration by county were presented
- Projected growth by 2050:
  - Population: +195k residents
  - Employment: +223k employees (may double-count some two-job situations)
- Regional employment growth is expected to be largest in the 'Services' industry, followed by 'Retail'

### Goal Prioritization – Discussion

- TAC members were asked to complete a brief ranking survey relating to the MTP's 8 goals in December
- Results for Small/Local and Large/Regional projects were compared with respect to previous MTP
- Public Survey (interim) results were also compared

### Observations & Discussion included the following:

- Small/Local projects prioritized Safety, and Congestion Reduction higher than previous, though the relative weights (% of 100) varied by 2-3%
- Large/regional projects prioritized Congestion Reduction, Safety, and Freight higher than previous
  - Maintenance remained highly important, though slipped from #1 to #3 ranking (-4%)
- Public was asked to rank from 1<sup>st</sup> to 8<sup>th</sup>, so there are no weighted values
  - Public agrees with the same top 3: Congestion Reduction, Maintenance, and Safety
  - Public valued Freight much lower (similar to Small/Local projects), as anticipated
  - Public valued Health & Environment higher than Preservation or Mode Choice(s), likely influenced by proximity to the Great Smoky Mountains and its tourism influence

### Funding Trends – Discussion

- Prior MTP assumptions:
  - project **revenue** growth of **~+2.2% per year**
  - **inflation** cost increase of **~+3.3% per year**
    - TDOT 10-year plan assumes **~+3.8% per year** (more conservative estimate)
- Much has changed since this time: Pandemic, IIJA Federal programs; [TDOT 10-year 'Build with us'](#)

### Discussion through presentation slides included the following:

- Nine (9) projects for this TPO within the TDOT 10-year plan
  - ALL would be considered 'committed' and fully funded; must be included in our first Tier/Horizon year of projects

#### FY2024-2026 – 3-year plan

- (2) Anderson County \$250.6M
- (8) Knox County \$33.3M

#### Traditional State & Federal Funding

- (R1-4) Knox County \$523M
- (R1-3) Blount County \$338.5M
- (R1-11) Knox County \$70.3M – split into three sections
- (R1-2) Blount County \$123.4M
- (SA-1) Knox County \$32M

#### TMA Funding

- (R1-5) Loudon County \$97.4M

#### General Fund Transfer (GTF)

- (GFT-06) Knox County \$61.8M

### Action items:

#### TAC members

- Correct anything that we may have mislabeled, or described above
- Continue to promote the Survey + Interactive map: <http://knoxmobility.org/feedback>

- Compile & share regional photos showing all modes of travel
- Identify and suggest community outreach opportunities in your jurisdiction – request meeting materials

Stantec team

- Facilitate and summary of feedback from Community Events – Round #1
- Summary of existing conditions/performance and synthesis of information for all modes of travel
- TAC#3 – Spring 2024 – virtual meeting

**Attachments:** Presentation slides

Attendees list

Good afternoon,

Below is the list of attendees at this morning's Technical Advisory Committee meeting.

- Laura Smith, ETDD
- Ekem Amonoo-Lartson, ETDD
- James Temple, Sevier County
- Patrick Berge, City of Oak Ridge
- Brian Boone, City of Maryville
- Darryl Smith, Town of Farragut
- Tom Clabo, City of Knoxville
- Troy Ebbert, TDOT
- Kathryn Baldwin, Anderson County
- Tanner Charles, Knoxville Area Transit
- Beth Collins, Lenoir City
- Karen Estes, CAC
- Dakota Gentry, City of Alcoa
- Michael Hogan, City of Loudon

- Amy Brooks, Knoxville-Knox County Planning
- Dallas DeArmond, Knoxville-Knox County Planning
- Terry Gilhula, Knoxville-Knox County Planning
- Aubrey Weiland, Knoxville-Knox County Planning
- Doug Burton, TPO
- Craig Luebke, TPO
- Mike Conger, TPO
- Emily Jackson, TPO

1

## Agenda

1. Welcome / Introductions
2. Review of Schedule, Outreach
3. FHWA Requirements

MOBILITYPLAN 2050

3

## Agenda

1. Welcome / Introductions
2. Review of Schedule, Outreach
3. FHWA Requirements
4. Growth Trends Discussion
5. Goal Prioritization
6. Funding Trends
7. Action Items

MOBILITYPLAN 2050

4

# General Timeline

**21-month time frame**  
Sept 2023 – May 2025

**WE ARE HERE!**

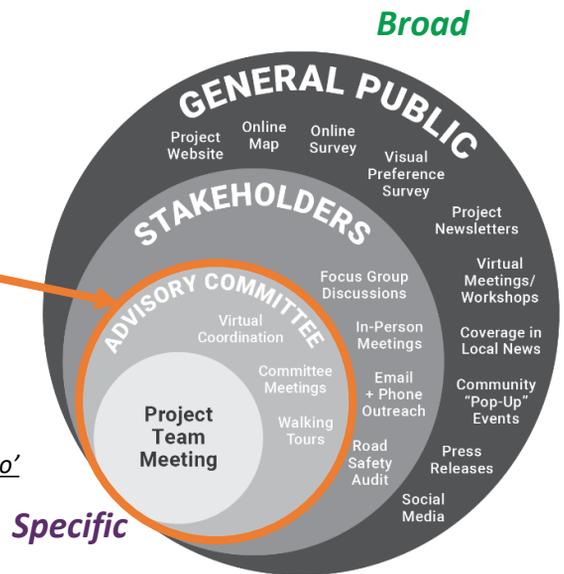

**MOBILITYPLAN 2050**

# Outreach Strategy

**Varying scale & audience...**

- Website + Online Survey + Interactive Map**
  - Digital outreach 24-hours / 7-days
- Technical Advisory Committee (TAC)**
  - Total of eight (8) – half virtual
- Community Events: two (2) rounds**
  - Issues & Vision:** citizens provide direction
  - Priorities:** citizens provide feedback
- Focus Groups: up to six (6), virtual "listening"**
  - Topics identified – need help identifying the 'who'

**MOBILITYPLAN 2050**

## Outreach to date

- **3,280** email list / newsletter recipients
- **690+** survey participants
- **330+** point of interest added
- **84** focus group participants (5 sessions)
- Three (3) Community Events:
  - Monday evening 4-7 pm
    - Tuesday afternoon *virtual* 12-1 pm
    - Tuesday evening 4-7 pm

MOBILITYPLAN 2050

8

## Survey – Initial Takeaways

690  
respondents

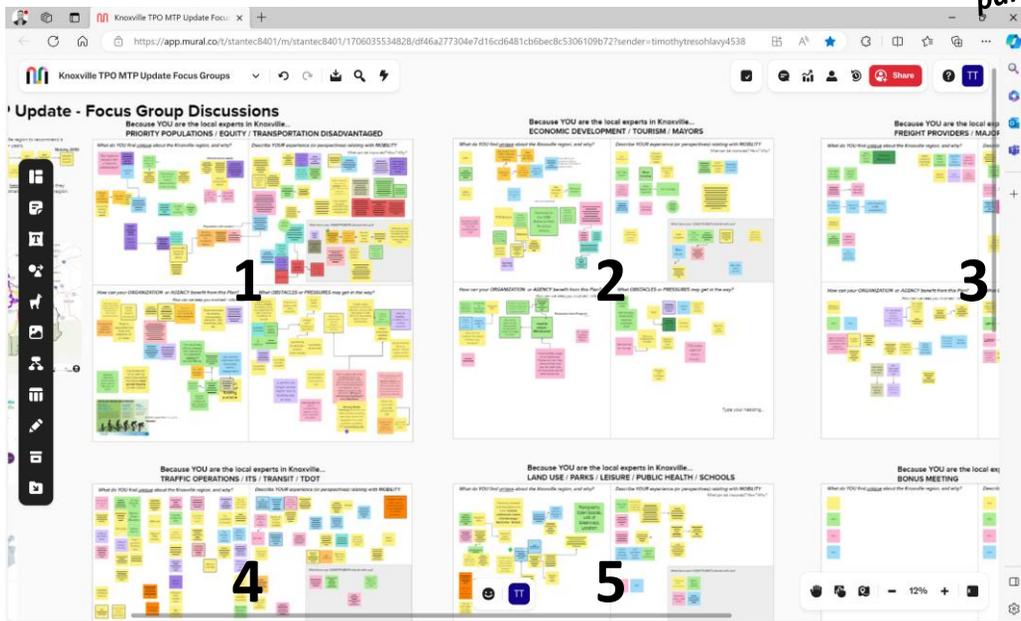

- Good mixture of age categories (30-40-50-60+ years old)
- 74% typical commute under 30-min – though 35% are '*unsatisfied*'
  - Half of respondents experience 'Heavy congestion' & feel the Transportation System in the region is '*Worse*' than 5 years ago
- CRITICAL transportation problems to address:
  1. Congestion (56%)
  2. Lack of sidewalks/bike lanes (22%)
  3. Lack of transit service (9%)
- Prefer funding for:
  - Small (54%); Large (32%); Maintenance (14%) projects

MOBILITYPLAN 2050

9

# Focus Groups – Mural Board

84 participants

10

## Agenda

1. Welcome / Introductions
2. Review of Schedule, Outreach
3. FHWA Requirements
4. Growth Trends Discussion – 15-min
5. Goal Prioritization – 20-min
6. Funding Trends – 15-min
7. Action Items

11

# FHWA Guidance

- “... development of a transportation plan addressing **at least 20+ years** horizon, featuring both long-range and short-range strategies to develop an **integrated intermodal** transportation system that facilitates the efficient movement of **people** and **goods**.”
  - Identify **congestion management** strategies, meeting 23 CFR part 500
    - Demonstrate a systemic approach to address current & future transportation demand
    - Identify SOV projects that result in congestion reduction
  - Identify pedestrian walkways, and bicycle transportation facilities 23 USC 217(g)
  - Include a **financial plan** with historical trends and projected revenue sources

## MOBILITYPLAN 2050

12

## Good News!

- Much of this work has been accomplished through other projects/plans
  - Vision Zero / Regional Safety Action Plan (2023)
  - Comprehensive Land Use and Transportation Plan (2023)
  - KAT Reimagined (2024)
- Our strategy is to:

## MOBILITYPLAN 2050

13

# Agenda

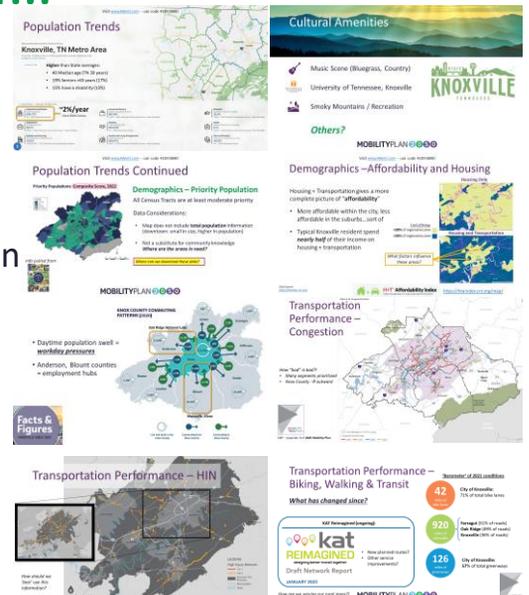

1. Welcome / Introductions
2. Review of Schedule, Outreach
3. FHWA Requirements
4. Growth Trends Discussion – 15-min
5. Goal Prioritization – 20-min
6. Funding Trends – 15-min
7. Action Items

## MOBILITYPLAN 2050

15

## TAC#1 Mtg we discussed...

- US Census / demographics and trends
- Cultural amenities of the region
- Priority Population trends (equity)
- Housing Affordability + Transportation burden
- Commuter inflow/outflow patterns
  - Congestion Management Process
- Safety / High Injury Network
- KAT Reimagined process

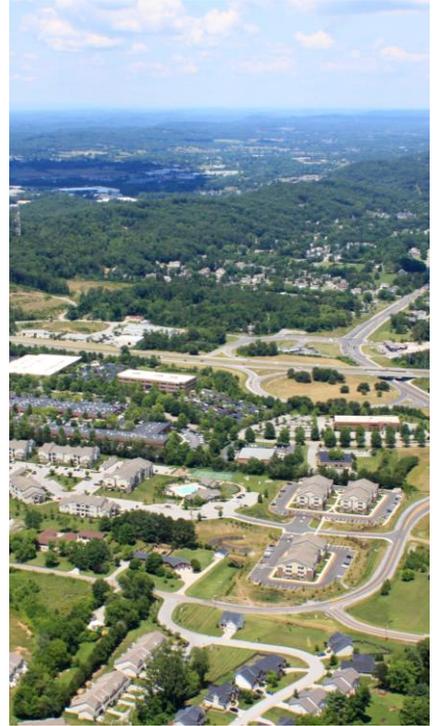

16

## Growth Trends – Population and Employment Control Total Discussion

### Purpose-

- 23 CFR 450.324 – “In updating the transportation plan, the MPO shall base the update on the latest available estimates and assumptions for population, land use, etc...”
- First step of Plan update is to develop demographic projections and obtain agreement on their acceptability for use
- Projections serve as key input to TPO Regional Travel Demand Model

17

## Projection Data Source Options

- I. “Baseline” Previous Mobility Plan 2045 Projections
  - Used Woods & Poole Economics projections released in 2019
- II. U.T. Center for Business & Economic Research (CBER) – 2022 Release
  - Semi-official source for population projections statewide
- III. Woods & Poole Economics
  - Proprietary, national-level comprehensive economic and demographic projections of more than 900 variables for every county in U.S.

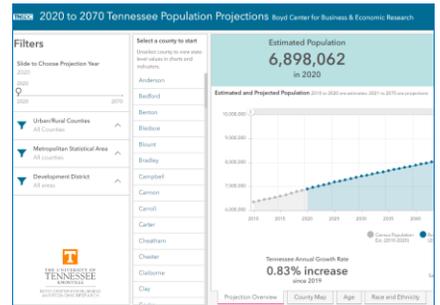

18

## CBER 2022 Release

- Release Date: March 3, 2022
- Base Year: 2020 (Census Population Estimates Program 2020 Vintage)
- Forecast Period: 2021 – 2070
- Cohort-component methodology using Natural Change (Births – Deaths) + Net Migration estimation based on historical trends
- Demographic forecasts only (no employment forecasts)
  - Population by sex, age, and race
- Disclaimers
 

“Due to concerns about immediate data imperfections in the 2020 Population Estimates...we recommend using caution when planning with these”

19

## Woods & Poole 2023 Release

- Base Year: 2020 (Census Population Estimates Program 2022 Vintage)
- Forecast Period: 2021 – 2060
- Population projections are tied to Employment projections
  - Population “Demand” is estimated from the economic model – if demand for labor in a region is increasing then population in-migration assumed to be positive
- Economic and demographic projections
  - Population by sex, age, and race
  - Employment and earnings by major industry
  - Retail sales by kind of business
  - Household number, size, and income

27

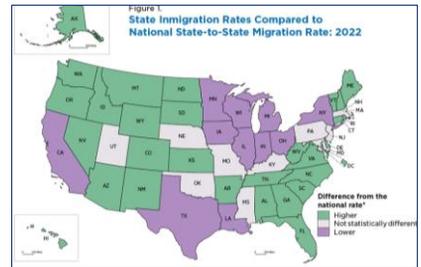

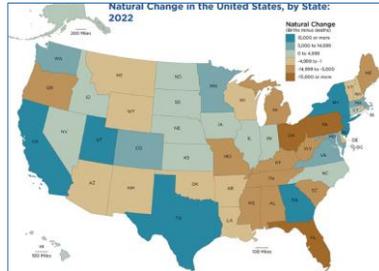

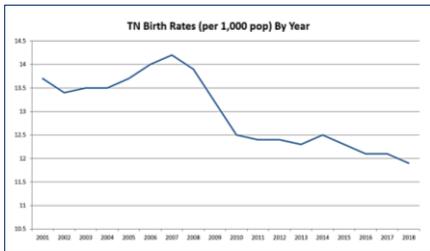

## MOBILITYPLAN 2050

28

# Major Trends Influencing Population Change

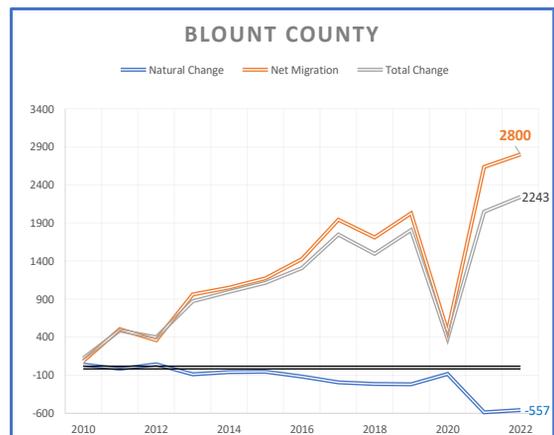

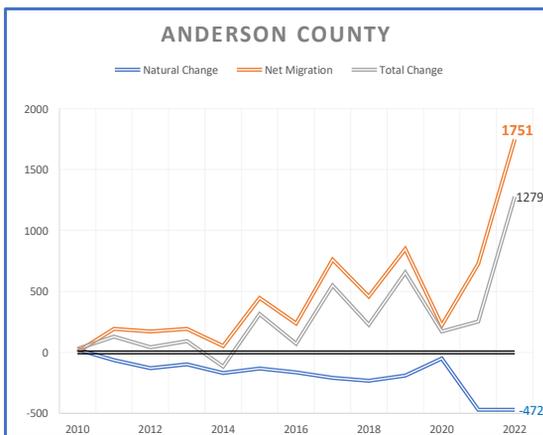

- During the Great Recession (2007-2009), birth rates across the nation dropped
  - For years, assumed birth rates would return to pre-recession levels but this appears to be a foundational change
- Many States including Tennessee experiencing negative Natural Change (births minus deaths) in 2020-2022 likely due to Covid
- Tennessee, including Knoxville Region, seeing much higher In-Migration than previous years

MOBILITYPLAN 2050

29

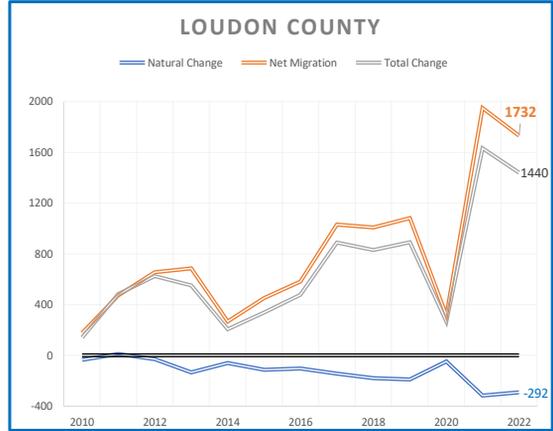

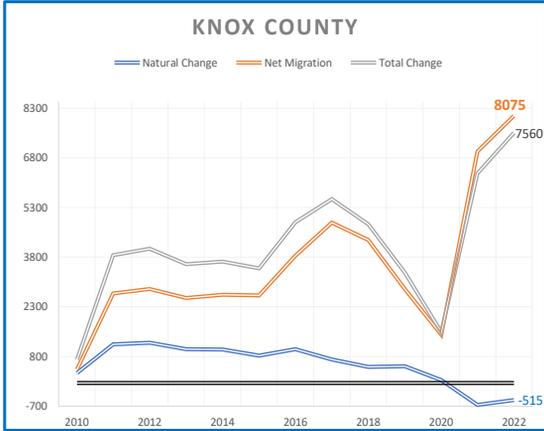

# County-by-County Components of Population Change

## Employment Projections

Source: Woods & Poole Economics, Inc.

34

# Summary & Discussion

- **Latest Planning Assumptions – updating from 2018 Base Year to 2022**
- **Monitoring major population trends – short or long term?**
  - Declining birth rates
  - Increase in mortality
  - Increase in 'In-migration'
- **Data sources:**
  - CBER
  - Woods & Poole Economics, inc
- **TPO Staff Recommendation is to Use Woods & Poole, Inc. population projections for Mobility Plan 2050**
  - Most Current Available
  - Provides host of other interrelated socioeconomic variables needed for Travel Demand Model such as employment, income, and # of households

COUNTY	Population		Change
	2022	2050	
Anderson	78,913	84,591	5,678
Blount	139,958	175,416	35,458
Knox	494,574	592,702	98,128
Loudon	58,181	76,239	18,058
Roane	55,082	57,511	2,429
Sevier	98,789	134,155	35,366
<b>TOTAL</b>	<b>925,497</b>	<b>1,120,614</b>	<b>195,117</b>

COUNTY	Employment		Change
	2022	2050	
Anderson	52,736	58,783	6,047
Blount	74,947	115,626	40,679
Knox	340,445	461,262	120,817

3. FHWA Requirements
4. Growth Trends Discussion – 15-min
5. **Goal Prioritization** – 20-min
6. Funding Trends – 15-min
7. Action Items

36

# Prioritization

- We shared a survey link...  
here are the results

*Compared with the prior plan*

**MOBILITYPLAN 2050**

**MOBILITY 2045 PLAN**

37

## Weighted Average of 100 points

### SMALL / Local

**MOBILITYPLAN 2050**

38

### SMALL / Within Region

**MOBILITY 2045 PLAN**

**Weighted Average of 100 points**

39

... and the Public (Survey) Suggested ...

**MOBILITYPLAN 2050**

40

## Let's Discuss...

SMALL / Local	LARGE / Regional	Public
Safety & Security 21	Congestion Reduction 19	Congestion Reduction
Congestion Reduction 15	Safety & Security 17	Maintenance & Efficiency
Maintenance & Efficiency 14	Maintenance & Efficiency 15	Safety & Security
Health & Environment 13	Economy & Freight 14	Health & Environment
Equitable Access 11	Health & Environment 12	Equitable Access
More Options (mode) 8	Equitable Access 9	More Options (mode)
Preservation of Places 10	Preservation of Places 8	Preservation of Places
Economy & Freight 8	More Options (mode) 6	Economy & Freight

- Are these appropriate priorities for 2024+?
- Are there additional perspectives needed? Whom?
- How will we best use these weights on projects?
- *Other questions?*

41

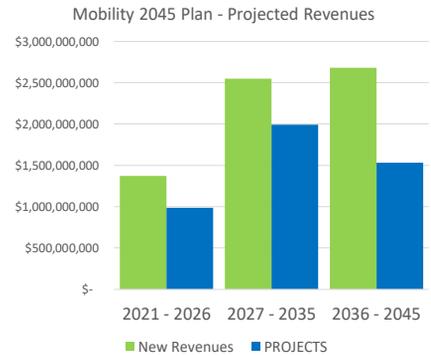

## Agenda

1. Welcome / Introductions
2. Review of Schedule, Outreach
3. FHWA Requirements
4. Growth Trends Discussion – 15-min
5. Goal Prioritization – 20-min
6. Funding Trends – 15-min
7. Action Items

42

# Financial Projections (2045 Plan)

- Projections based upon historical allocations ***by program***
  - Not just dollars in / dollars out
- Assumptions:
  - Revenue growth: **~2.2% per year**
    - IJA revenue growth avg. 1.9% annually from baseline (2% for most formula programs)
  - Cost increase: **~3.3% per year**
- Are these assumptions still appropriate?

HORIZON	New Revenues	PROJECTS	% Total
2021 - 2026	\$ 1,372,416,672	\$ 987,093,273	22%
2027 - 2035	\$ 2,551,033,402	\$ 1,990,748,584	44%
2036 - 2045	\$ 2,681,920,662	\$ 1,530,936,820	34%
	<b>\$ 6,605,370,736</b>	<b>\$ 4,508,778,677</b>	

43

## What has changed?

- A global pandemic!
  - Change in commuting patterns!
- Inflation!
- Regional population growth!
- New Federal / State transportation funding legislation!
  - Safety focus / Safe Streets and Roads for All (SS4A)
  - TDOT 'Build with Us' 10-year plan [Build With Us \(tn.gov\)](https://www.tn.gov/build-with-us)
  - *Other(s)*

44

# TPO Funding Overview

- TPO call for projects and programming approach
  - One call for projects for all TPO attributed funds (L-STBG, L-STBG-TA, CRP)
  - Projects are then fit to available funding program budgets for TIP programming
  - Mobility Plan project funding source does not determine eventual TIP programming source
  - Cost overruns above policy thresholds approved by Tech Committee
- Benefits
  - Ease of managing (and responding to) one call for projects vs. several
  - Transparent cost overrun management
- Challenges
  - “Unified” call may be less flexible than multiple project calls
  - Fiscal constraint in an inflationary environment has not allowed for “interim” project calls
- 2050 Plan projected TPO attributed revenue: **\$713M** (~11%-16%)
  - L-STBG: \$574M
  - L-STBG-TA: \$69M
  - CRP (carbon reduction): \$69M

MOBILITYPLAN 2050

45

## Let's Discuss...

- TDOT's recent **10-Year Plan** has implications for the region:
  - Consultation necessary to inform revenue projections for TDOT attributed sources
- The **IIJA Act** was passed, and **new funding programs are available:**
  - Formula: Carbon Reduction Program (CRP)
  - Competitive Grants:
    - SS4A, Reconnecting Communities, PROTECT
- Revenue Growth
  - IIJA - most formula programs grow 2% annually
  - *This MTP should use... (discussion)*
- Year of Expenditure (YOE) costs
  - TDOT: 3.8% from 10-year plan – ‘**Build with Us**’
  - *This MTP should use... (discussion)*

46

# General Timeline

**21-month time frame**  
Sept 2023 – May 2025

**WE ARE HERE!**

# Outreach to date

- **3,280** email list / newsletter recipients
- **749** survey participants
- **430+** point of interest added
- **84** focus group participants (5 sessions)
- Three (3) Community Events: **60 sign-ins**
  - Monday evening 4-7 pm
  - Tuesday afternoon *virtual* 12-1 pm
  - Tuesday evening 4-7 pm

**MOBILITYPLAN 2050**

# Community Engagement – Takeaways

## What could this Region Look Like by 2050

- Density of development (housing) to be more walkable / Transit oriented development
  - Housing choices / affordable housing
  - Mobility without the need for a car / Fewer cars / more transit
  - Better planning for density and walkability / less pavement
  - **Avoid sprawl and office parks**
  - Controlled population growth / Small Town feel / greenspaces
- Safety: Vision Zero goals, and reducing speeds
  - Improved visibility on our roads (lighting, and reflectivity)
- Regional transit options / more downtown circulator(s)
- Streetscapes / more trees, shade, greenspaces
  - More sidewalks
  - Balance of open spaces, housing, parks, and roadways
  - Outdoor living!
- Community belongingness, and happy citizens / slower growth rates
- Complete the highway projects
- Air quality improvements / alternative fuels / electric school buses
  - Solar panels within parking lots
  - Protect the environment
- Bikeways, especially separated from cars
  - Bike repair / maintenance stations

8

## Agenda

1. Welcome / Review of Schedule
2. Outreach to date
3. Project Audit – 10-min
4. Interactive Mapping Demo – 20-min
5. Action Items

2

# General Timeline

**21-month time frame**  
Sept 2023 – May 2025

2

## Prioritization

- What & Why?
- Goals (x8)
- Evaluation Criteria
  - Normalization
  - Weighted Score
  - Rank
- Review and Comment

MOBILITYPLAN 2050

3

## Prioritization

- What & Why?
  - Performance-based planning / 3C approach
  - Data-informed process to evaluate and assign scores
  - Relative priority list (near-, mid-, long-term)
    - Not an absolute ranking (1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>)

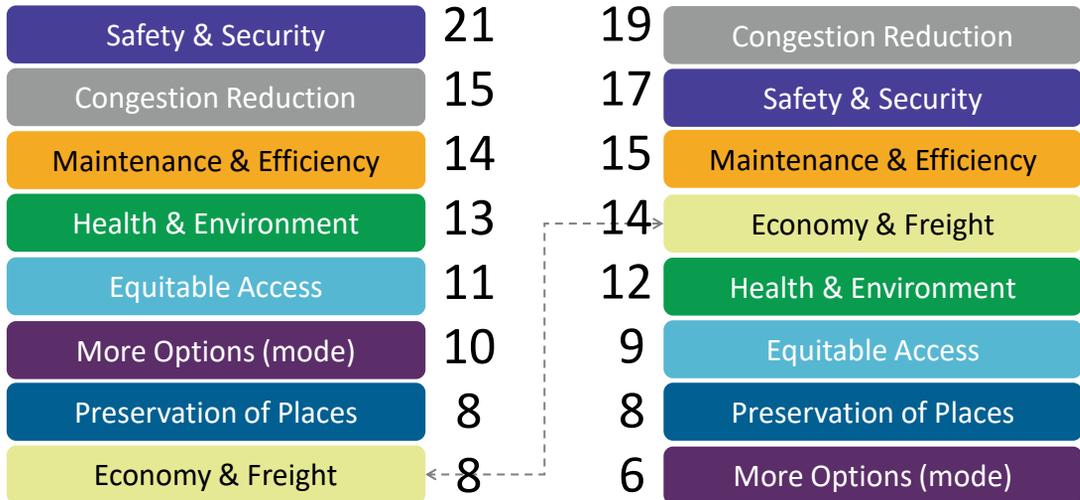

MOBILITYPLAN 2050

4

**Weighted Average of 100 points**

**SMALL / Local**

**LARGE / Regional**

**MOBILITYPLAN 2050**

5

**Goals – recap**

- Safety & Security**
  - Reduce the rate of **crashes with serious injuries and fatalities**. Reduce the region’s vulnerability to incidents and threats.
- Congestion Reduction**
  - Use our system **more efficiently through technology** like traffic signal coordination, real time traffic info, and emergency response vehicles.
- Maintenance & Efficiency**
  - Preserve & maintain our **existing infrastructure** through repaving projects, bridge replacements, access management, sidewalk repairs, and intersections.
- Health & Environment**
  - Minimize negative impacts** on the environment and people’s health and increase access to active transportation / physical activity for all ages.
- Equitable Access**
  - Connect communities to **opportunities & services** throughout the region, particularly areas with higher proportions of low income, senior, & minority pop.
- More Options (mode)**
  - Improve access to services and employment with **bicycle and pedestrian facilities, and transit services**.
- Preservation of Places**
  - Preserve **natural and cultural areas** and places that make our region unique (e.g., mountains, open space, farmland, viewsheds, small communities).
- Economy & Freight**
  - Improve **intermodal connections** to help move freight to and through the region. Reduce delay on major freight corridors.

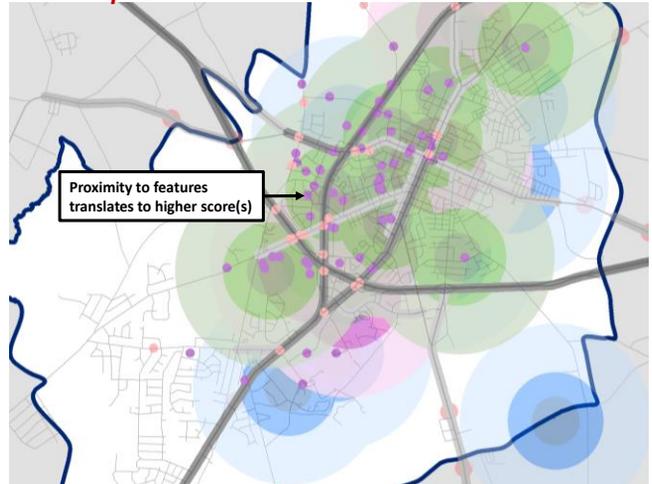

**MOBILITYPLAN 2050**

6

## Evaluation Criteria

- Measurable geographic features that relate **8 goals** with available GIS data resources
  - Quantity, Value, Proximity, or Raster grid

### Example

MOBILITYPLAN 2050

7

**DRAFT**

## Proposed Data Sources for Evaluation

<p><b>Safety and Security</b></p> <ul style="list-style-type: none"> <li>▪ Safety Action Plan (2023) created a predictive measure output for all TPO roads               <ul style="list-style-type: none"> <li>▪ % of project (length) that coincides with the high-injury network Tier 1</li> <li>▪ % of project (length) that coincides with the high-injury network Tier 2</li> </ul> </li> <li>▪ Interactive map points (100 locations) – speeding or safety issues shared by the public – converted to raster density</li> </ul>
<p><b>Congestion Reduction</b></p> <ul style="list-style-type: none"> <li>▪ NPMRDS – RITIS output from INRIX XD (all roads)               <ul style="list-style-type: none"> <li>▪ Level of Travel Time Reliability (LOTR) – value based on project segment and proximity – <b>limited to (NHS routes)</b></li> </ul> </li> <li>▪ Expected (FY) volume over capacity (v/c) – highest value along project segment – <b>limited to modeled roadways</b></li> <li>▪ Interactive map points (136 locations) – congestion issues pointed out by the public. Scored based on frequency and proximity</li> </ul>
<p><b>Maintenance and Efficiency</b></p> <ul style="list-style-type: none"> <li>▪ Crosses a bridge rated as 'Poor' or 'Critical' condition</li> <li>▪ TDOT pavement condition data – <b>limited to TDOT roadways</b> <ul style="list-style-type: none"> <li>▪ <b>Pavement Condition Index (PCI) dataset</b></li> </ul> </li> <li>• Interactive map points for maintenance issues (25 locations) – scored based on frequency of comments on project corridor</li> </ul>
<p><b>Health and Environment</b></p> <ul style="list-style-type: none"> <li>▪ Proximity to existing high-quality bikeway or pedway facilities</li> <li>▪ Project avoids potential impact with environmental resources (e.g., floodplains, wetlands, slopes) - score based on proximity, where closer receives a <u>worse</u> score</li> </ul>

8

**DRAFT**

# Proposed Data Sources for Evaluation

<p><b>Equitable Access</b></p> <ul style="list-style-type: none"> <li>Priority population – scored by priority populations (block group index value)</li> <li>Schools, recreation opportunities, parks – scored based on proximity within 0.25 / 0.5 / 1.0 mile (or convert to raster)</li> </ul>
<p><b>More Options (mode choice)</b></p> <ul style="list-style-type: none"> <li>Bikeway / Pedway / <b>Transit service</b> / multimodal project improvement, weighted by population density area(s)</li> <li>Connecting with or proximate to existing <b>Transit service area</b> / Pedway infrastructure – scored based on proximity</li> <li>Interactive map points for barriers to walking / biking (132 locations) – converted to raster density</li> </ul>
<p><b>Preservation of Place</b></p> <ul style="list-style-type: none"> <li>Project avoids potential impact with cultural resources, like parks, historic buildings / neighborhoods or areas - scored based on proximity, where closer receives a worse score</li> </ul>
<p><b>Economy and Freight</b></p> <ul style="list-style-type: none"> <li>Density of freight facilities (points converted to raster density) nearby to the project or corridor</li> <li>Density of employment (points converted to raster density) nearby to the project or corridor</li> </ul>
<p><b>Local Priority</b></p> <ul style="list-style-type: none"> <li>Project is identified in other local plans – higher score if included in several plans / prior MTP</li> <li>Project was identified during public engagement and/or by Technical Advisory Committee members as a priority for their community</li> </ul>

9

## Are there other Evaluation Criteria?

- Certainly, but they are *more subjective* →
  - “improves”
  - “includes”
  - “supports”
  - “promotes”
  - “addresses”
  - “corrects”
  - “reduces”
  - “enhances”
  - “contributes”

### Project Evaluation Criteria

**SYSTEM PRESERVATION & ENHANCEMENT**

Project improves existing route  
 Project improves traffic flow  
 Project reduces or mitigate the storm water impacts of surface transportation  
 Project has sustainable operations/ongoing maintenance support

**QUALITY GROWTH & SUSTAINABLE DEVELOPMENT**

Project improves access to encouraged/controlled growth area  
 Project supports infill/redevelopment  
 Project located near mixed-use, high density areas  
 Project contributes to roadway network connectivity

**ECONOMIC PROSPERITY**

Project located near existing jobs/high job growth areas  
 Project improves access to retail/activity center  
 Project enhances travel and tourism  
 Project endorsed by the Chamber of Commerce

**MULTI-MODAL OPTIONS**

Project is located within a planned/existing multi-modal corridor  
 Project reduced inter-modal conflict (e.g. traffic signals, intersection improvements)  
 Project includes transit accommodations (e.g. signal priority, pullouts, shelters)  
 Project includes pedestrian amenities  
 Project includes bicycle facility improvements  
 Project makes a connection to another modal facility

**SAFETY & SECURITY**

Project includes geometrical improvements for the safety of drivers, pedestrians, and cyclists.  
 Project includes signage/wayfinding  
 Project includes appropriate traffic calming techniques  
 Projects address a high crash location (intersection/corridor)  
 Projects improves transportation system resiliency and reliability  
 Projects reduces the safety of drivers, pedestrians, or cyclists

**FREIGHT & GOODS MOVEMENTS**

Project improves route with significant existing/anticipated truck movements  
 Project improves access to major good/freight distribution centers  
 Project address existing/anticipated freight-passenger conflict

**EQUITY, HEALTH & ENVIRONMENT**

Project improves accessibility for low-income/minority communities  
 Project corrects ADA Non-compliance  
 Project includes transportation choices for the disable/aging population  
 Project promotes physical activity  
 Project improves access to healthy food and health facilities  
 Project has potential negative impact on natural or socio-cultural resources

**COMMUNITY SUPPORT & CONSISTENCY**

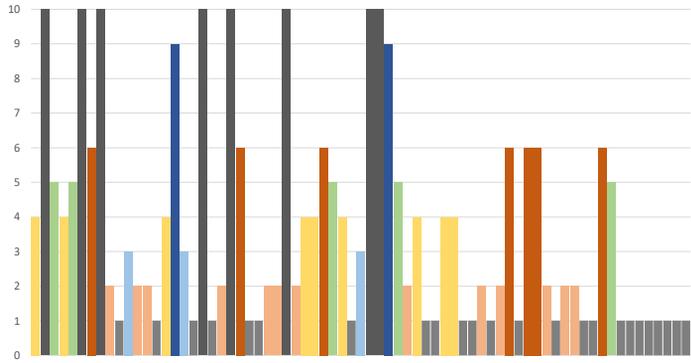

Project is considered as top local priority by public officials  
 Project has documented supports/needs from the community  
 Project has been considered in funding/grant applications  
 Project has been proposed in other plans/studies other than the LRTP

16

# Normalization

- Converting values to a *consistent* 1-10 scale

Project	Value	Normalized
1	237.4	10
2	82.4	3
3	26.7	1
4	156.2	6
5	104.3	4
6	175.5	7
7	186.3	8
8	124.6	5
9	68.8	2
10	210.5	9

## Review and Comment

- TAC members review the sorted list
- **Manual adjustments** are encouraged
  - *“We plan in pencil, not pen!”*

MOBILITYPLAN 2050

1

2

# General Timeline

**21-month time frame**  
Sept 2023 – May 2025

MOBILITYPLAN 2050

2

# Outreach to date

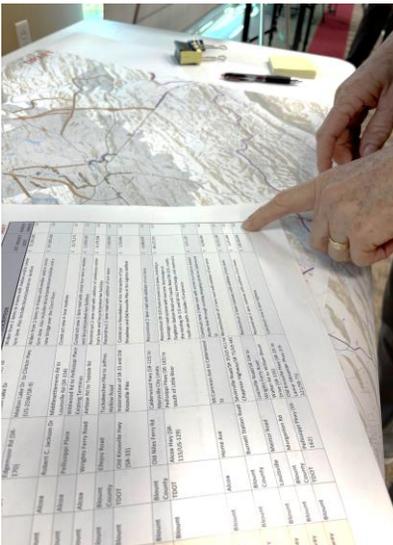

- **Website** updates + summary of outreach
- **772** survey participants
- **282** point of interest added
- **84** focus group participants (5 sessions)
- Two rounds of Community Events
  - Round #1 (Feb)
  - Round #2 (Oct)
    - Monday evening 4-7 pm
    - Tuesday afternoon *virtual* 12-1 pm
      - Post-L&L survey: ~194 respondents
    - Wednesday evening 4-7 pm

MOBILITYPLAN 2050

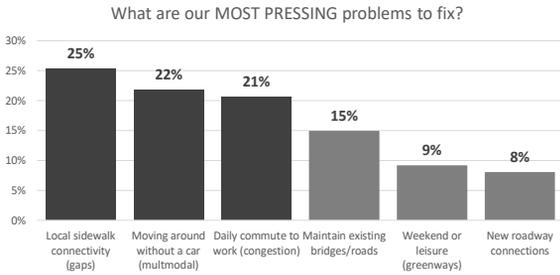

3

# Community Event Round #2

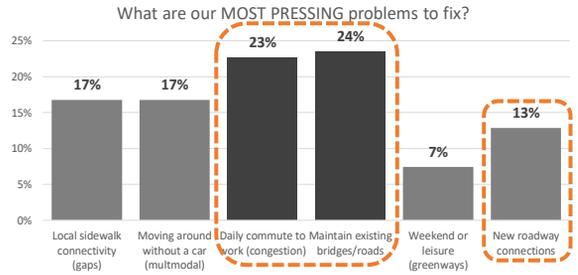

4

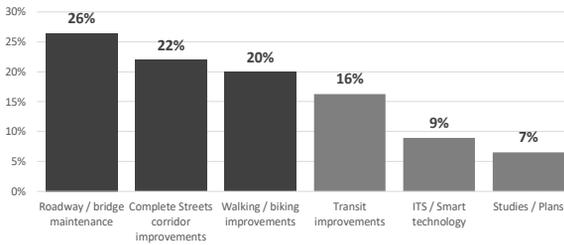

## Results from Oct Events (x3) ~33 participants

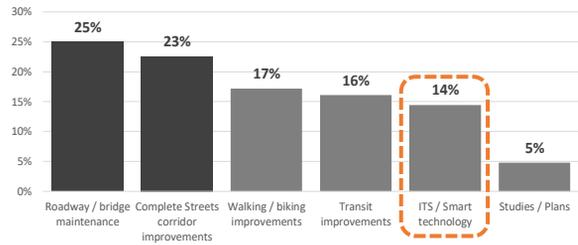

## Online Survey Results ~196 participants

How should we spend TRANSPORTATION dollars?

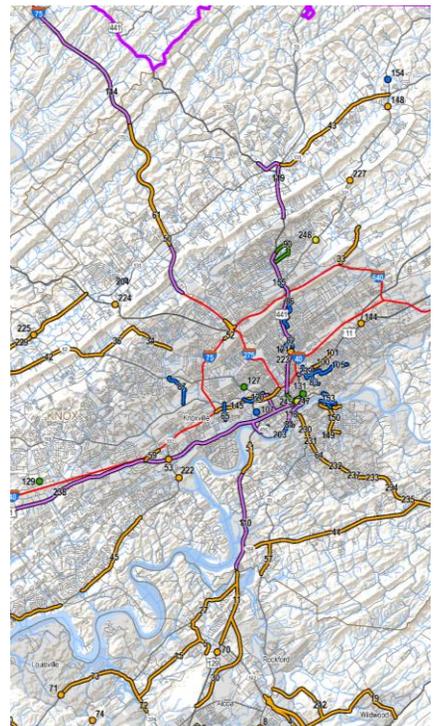

How should we spend TRANSPORTATION dollars?

5

## Projects – where we stand

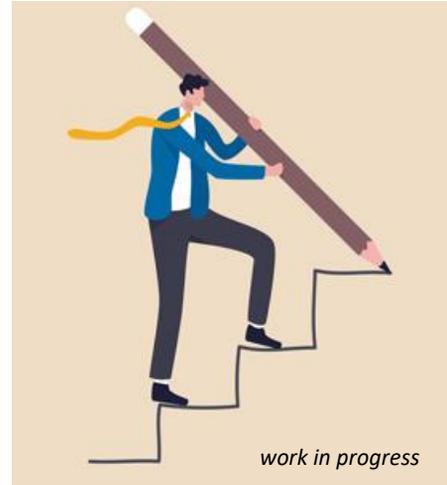

- **118** rollover projects from 2045 Mobility Plan
- **+40 new** projects added
- Projects by Category
  - Roadway (73%) – reconstruction, widening, maintenance
  - Bike/Ped (14%) – greenway/trail, ped bridge, Complete Street
  - ITS / Transit (10%) – ATMS, signal prioritization, new buses
  - Study / Other (3%) – Smart Trips, safety program, study
- Constructing an ArcGIS Online map for review

6

# Work In Progress

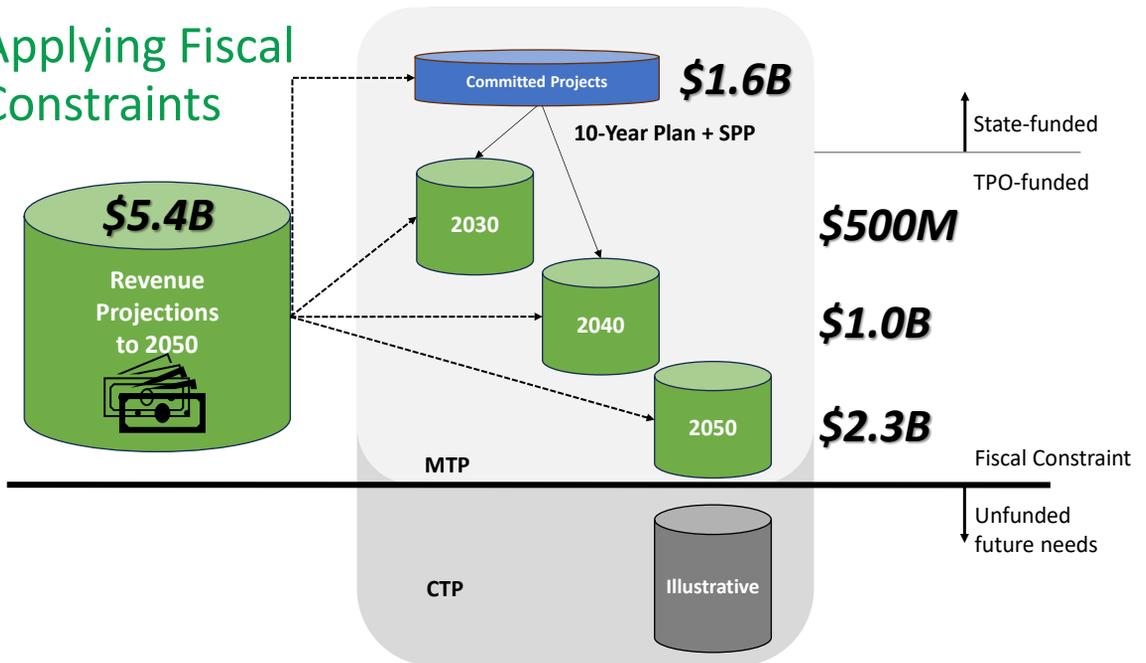

- Revenue projections to 2050
  - TDOT & FHWA agreement!
- Prioritization of projects
  - Data-informed process to evaluate and assign scores
  - Relative priority list
    - near-, mid-, long-term
    - **Not an absolute ranking (1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>)**

## MOBILITYPLAN 2050
